

1. As stated before, we need a system that would allow us post messages from brands. This is the core of Playchop. Admin can post what we call 'Opportunity' asking a user to use for example C500 to try to win a **discount, cash, event ticket, movie ticket, gift card, coupon, or gift from a company.**

The message can be created from the admin side. The admin also gets to choose how much Chops users need to put in for a chance to win any of the above. The admin also gets to select which of these (**discount, cash, event ticket, movie ticket, gift card, coupon, or gift**) the users can try to win.

Admin can also add the name of the company or brand sponsoring the 'Oppourtinity' with the words 'powered by' then company or brand name. The Oppourtinity just like a Sponsored post will be displayed for everyone on Playchop to see based on Interest. This is **connected to the reward system.** A user or users are then sent messages saying congratulations you have won an event ticket. Claim your win with e.g C100.

Please see sample 'Oppourtinity' message created by Admin below:

Win a free 'movie ticket' to watch any movie of your choice this weekend.

To stand a chance to win enter with C500. (there should be a button to click. Once a user clicks this, C500 is deducted from the users Chops. If the user does not have enough Chops. He or she gets a message saying **Sorry you do not have enough Chops. Do more activities to get more Chops**)

Powered by: Sohel Cinemas

Admins get to select winners and send them messages via the reward system already created.

2. The mobile number part during registration is not allowing for users to put in full phone numbers.

3. Change 'select your interest' to 'Select Your Interests'

4. Change the word 'other' to 'Others' under 'Select Your Interests'

5. Change 'This is the first notification given to user' to Welcome to Playchop. Do enjoy the experience. Engage in as many activities as you can to get rich with chops' Under 'My Notification'. Also change that to My Notifications.

We want that to be the first message every user gets with they first sign in.

6. Make it possible for Admin to set when Oppourtinity or Sponsored Post will disappear after posting.

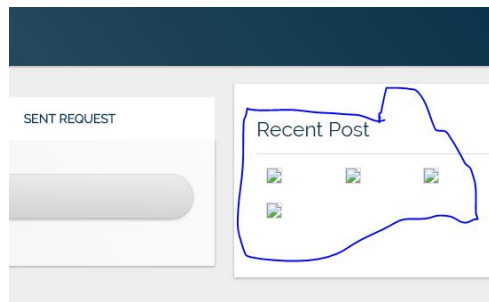

7. When a user clicks on the Playchop logo on the top left, it should take them back to the timeline.

8. When users saves an article, the article link should be clickable under 'My Articles'

9. User profiles should be clickable and searchable from anywhere. Whether through Top 100 Choppas or Suggested Friends.

10. My Articles is not showing on Mobile. It should be showing on Mobile please.

11. Nothing much in display here under Friends . Can we make Sponsored Posts or Oppourtinity show in there instead?

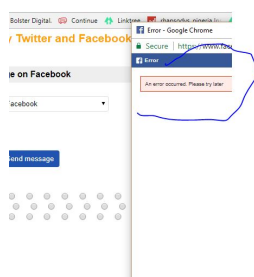

12. Let's change the image that is displayed on desktop when people type Playchop.com. I thought it was ok but it does not look that nice after all.

13. Change Vauchar to Reward Name, Reward Points, Reward Expiry Date (Note that Rewards are **(discount, cash, event ticket, movie ticket, gift card, coupon, or gift)** as mentioned earlier.

A form for adding a vaucher. It has three input fields: 'Vauchar Name', 'Vauchar Points', and 'Vauchar Expire Date'. Below these fields is a button labeled 'Add Vauchar'.

14. Polls feature is not working properly. When you try to respond to a Poll, response is not recorded properly.

15. Facebook invite error

16. Twitter invite not getting past the marked area below

Step1 : Getting Authentication Uri

Service :

Step2 : Authenticating User

Authentication Uri :

17. Email invite not sending emails even though it says successfully invited.

18. **About** page should not show posts of other users. Just Sponsored Posts, Oppourtinity Post and Posts of the User him or herself.

Hello every one

19. Can we have everything that is on display on desktop on Mobile? Including admin area features. This would be awesome.

20. Since we are changing the word 'Vaucher' to 'Reward' i believe the change would be reflected here.

Message

Choose your Vaucher

Choose your Interest

21. Admin should be able to select the users that are to get Rewarded, who to send reward messages to. Based on the 'Oppourtinity' contest. I noticed that this feature below is not working properly.

Congratulations. You have have won a ticket to watch Black Panther at Sample Cinema. Claim your win with C100.

Event Ticket.100

SEND

Sorting these out would be a great effort. And we will appreciate. As it is now it is obvious we will do more business together in the future.

Well Done Guys!!!
